

Amendments to the Claims

Claim 1 (Withdrawn): A rack guide for a dishwasher rack having opposite sides, a front and a back, and being movably supported on tracks mounted on opposite vertical sidewalls in a dishwasher, the rack guide comprising:

a member associated with the rack and extending laterally outwardly for engagement with the dishwasher vertical sidewall.

Claim 2 (Withdrawn): The rack guide of claim 1 wherein the member snap fits onto the rack.

Claim 3 (Withdrawn): The rack guide of claim 1 further comprising a leg extending from the member and adapted to engage the rack and prevent movement of the member.

Claim 4 (Withdrawn): The rack guide of claim 1 further comprising a pair of legs extending from the member and adapted to engage the rack to stabilize the member.

Claim 5 (Withdrawn): The rack guide of claim 1 wherein the member is integral with the rack.

Claim 6 (Withdrawn): The rack guide of claim 1 wherein the member includes a wheel for engaging the vertical sidewall of the dishwasher.

Claim 7 (Withdrawn): The rack guide of claim 6 wherein the wheel rotates about a vertical axis.

Claim 8 (Original): An improved dishwasher rack comprising:
a wire rack with a front, a back, and opposite sides; and
a pair of members on the rack, each being adapted for engagement with a vertical sidewall of the dishwasher to substantially preclude lateral movement of the rack.

Claim 9 (Original): The dishwasher rack of claim 8 wherein each member snap fits onto the rack.

Claim 10 (Original): The dishwasher rack of claim 8 wherein each member has at least one leg extending therefrom to engage the rack and thereby substantially preclude movement of the member.

Claim 11 (Original): The dishwasher rack of claim 8 wherein the members are integrally formed in the opposite sides of the rack.

Claim 12 (Original): The dishwasher rack of claim 8 wherein each member includes a wheel to roll along the vertical sidewall of the dishwasher.

Claim 13 (Original): The dishwasher rack of claim 12 wherein each wheel rotates on a vertical axis.

Claim 14 (Original): The dishwasher rack of claim 8 wherein each member is mounted adjacent a rear corner of the rack.

Claim 15 (Original): The dishwasher rack of claim 8 wherein the rack includes upright wires upon which each member is mounted.

Claim 16 (Original): The dishwasher rack of claim 8 wherein each member includes a curved surface for engaging the dishwasher sidewall.

Claim 17 (Original): The dishwasher rack of claim 16 wherein the curved surface of each member extends about a vertical axis.
